

Credentials for
a Digital World.

What is Adobe Certified Associate Certification?

The Adobe Certified Associate (ACA) certification is an industry recognized credential that demonstrates proficiency in Adobe digital communication tools, including Adobe Photoshop®, Adobe InDesign®, Adobe Illustrator®, Adobe Dreamweaver®, Adobe Flash®, and Adobe Premiere Pro®.

www.certiport.com/ACA

Krystal Howell

Seabrook, TX, United States
NASA Video Editor Intern

An ACA certification is like grabbing the skeleton key to a seemingly endless number of doors. Not only has the certification brought me a feeling of accomplishment and satisfaction, but it has helped me attain a paid internship at NASA's Johnson Space Center in the Television Production department as an assistant producer and editor.

Brannon DuBose

Gulf Breeze, FL, United States
Website Builder/Webmaster

My ACA certifications set me apart and in only a few months out of high school I was hired as a website builder/webmaster starting at a \$30,000 salary. My certifications proved my skills and my desire to learn and earn experience. It is because of my ACA certifications that I will graduate college debt free and attain my goals sooner.

Patricia Matos

Cary, NC, United States
Student, Fashion Institute of Technology

I obtained my ACA certifications in Photoshop, Illustrator, and InDesign during my last semester of high school in North Carolina. The following fall, I moved to New York City to attend a prestigious fashion school. My professors and classmates were in awe of my knowledge of these programs, and I was even exempt from taking a beginner Photoshop class because of my abilities and my portfolio!
