

NOTICE OF PEST MANAGEMENT PLAN

This notice is to inform all parents, students, faculty, and staff that in accordance with School Board Policy # 716, Integrated Pest Management, Middle Bucks Institute of Technology shall implement integrated pest management procedures to manage structural and landscape pests and the toxic chemicals used for their control in order to alleviate pest problems causing the least possible hazard to people, property and the environment.

Integrated pest management is the coordinated use of pest and environmental information to design and implement pest control methods that are economically, environmentally, and socially sound. Integrated pest management is a method of prevention rather than remediation.

IPM Contractor is: Lethal Pest Solutions Pa. Department of Agriculture Certificate # 840252

The current schedule for pesticide services are the first and third Friday of each month between the hours of 6:00am-7:00am. Information regarding pest management schedule including pesticide use is on file in the Facility office at Middle Bucks and is available to the public for review by any interested party or individual during normal school hours. The Facility Manager is the person assigned to oversee the pest management schedule to ensure that compliance is met.

If anyone would like to be provided with notification of individual applications of pesticides, please notify the Facility Manager of your request in writing.
