

FOR IMMEDIATE RELEASE:

Middle Bucks Institute of Technology's Multimedia Students Win at Greenfield Youth Film Festival!

Jamison, PA- Middle Bucks Institute of Technology is thrilled to announce the outstanding achievement of their talented Multimedia Technology students at the Greenfield Youth Film Festival. The festival, renowned for its recognition of young filmmakers and their exceptional storytelling abilities, showcased the creativity and passion of emerging young filmmakers. Middle Bucks takes great pride in congratulating their exceptional students on their well-deserved success.

We commend these young filmmakers for their remarkable accomplishments and their ability to use the power of storytelling to inspire, entertain, and provoke meaningful conversations. Their films not only exhibit their technical expertise but also their ability to connect with audiences on a deep and emotional level.

"It was a thrilling experience! I am a junior, so I am already thinking next year! I learned so much!" Multimedia student Isabella Risich

As Career and Technical center, Middle Bucks is committed to fostering creativity, innovation, and education. Middle Bucks believes in the transformative power of storytelling and the immense potential of our youth to shape the future through their unique perspectives.

"We extend our gratitude to the Greenfield Youth Film Festival for providing an invaluable platform for young filmmakers to showcase their talents and connect with the industry's best professionals. This recognition at the festival will undoubtedly serve as a steppingstone in the students' cinematic journeys." Multimedia Instructor, Jim Davey

The Multimedia Technology students are supported and instructed by their teacher, Mr. James Davey, who himself is an Emmy Award winner in his own right. Mr. Davey joined the staff at Middle Bucks in January 2015 to teach Multimedia Technology to students from Centennial, Central Bucks, Council Rock and New Hope Solebury School Districts. The Multimedia Technology program prepares high school for careers in media production and design with an emphasis on story-telling, industry techniques, as well as software and hardware necessary for creating content for business, education, and entertainment.
