Successful Career Fair Connects Home Builders Association of Bucks and Montgomery Counties with Middle Bucks Institute of Technology

Jamison, PA. - The Middle Bucks Institute of Technology (MBIT) and Home Builders Association of Bucks and Montgomery Counties (HBA) recently teamed up to host the 2nd annual career fair for MBIT students, and the event was a resounding success. Held at the Middle Bucks campus, the career fair provided students with the opportunity to connect with local industry partners and learn more about potential career paths. Over 30 businesses and organizations participated in the career fair, offering more than 200 students information about their industries, career paths, and job opportunities. Students were able to speak with employers and present their resumes and career goals.

State Representative Kristin Marcell took the time to attend the career fair, speaking with students and engaging with industry partners, all of which helped to make the event a success.

Also, MBIT recognized **Women's History Month**, **Women in Construction week**, and **International Women's Day** in March. This event was an opportunity to highlight the achievements of women in construction. Providing a platform for aspiring female builders, architects, engineers, and tradespeople to connect with industry professionals, explore career pathways, and learn about opportunities in the construction field.

Dr. Mark Covelle, Administrative Director MBIT stated "We were excited to welcome members of the HBA to the second annual HBA & MBIT career fair on March 8th. With businesses looking for more and more skilled workers, the students of MBIT have a real competitive advantage in business and industry. Business partners not only shared the various career pathways that exist for MBIT students, but also gave the students the opportunity to implement their employability skills by meeting with companies and sharing their resumes. Several students left the career fair with job offers in hand". Covelle added, "The partnership we have with the HBA is unique and mutually beneficial and we look forward to continued collaboration and cooperation".

About HBA of Bucks & Montgomery Counties:

The Home Builders Association of Bucks and Montgomery Counties is a non-profit trade association representing the residential construction community in Southeastern Pennsylvania. Our 400+ members are small, medium, and large volume homebuilders/developers and the professionals and tradespeople who service the home construction industry.

About Middle Bucks Institute of Technology:

Middle Bucks Institute of Technology (MBIT) is in Warwick Township on York Road (Route 263) in Jamison, Pennsylvania. The picturesque high school campus sits on 58 acres and is supported by Centennial, Central Bucks, Council Rock, and New Hope-Solebury School Districts. MBIT operates as a school of choice designed for students who are seeking to enhance their educational program with a highly relevant career and technical experience connected directly to the real world of business and industry. Over 400 business and industry advisors review and update the school's educational program annually. The MBIT experience provides students with a blend of classroom theory, technical applications in state-of-the-art laboratories, and off-campus work-based experiences. Students learn and apply reading, writing, mathematics, science, communications, and technology in a way that has personal meaning and career relevance.
